Calendar

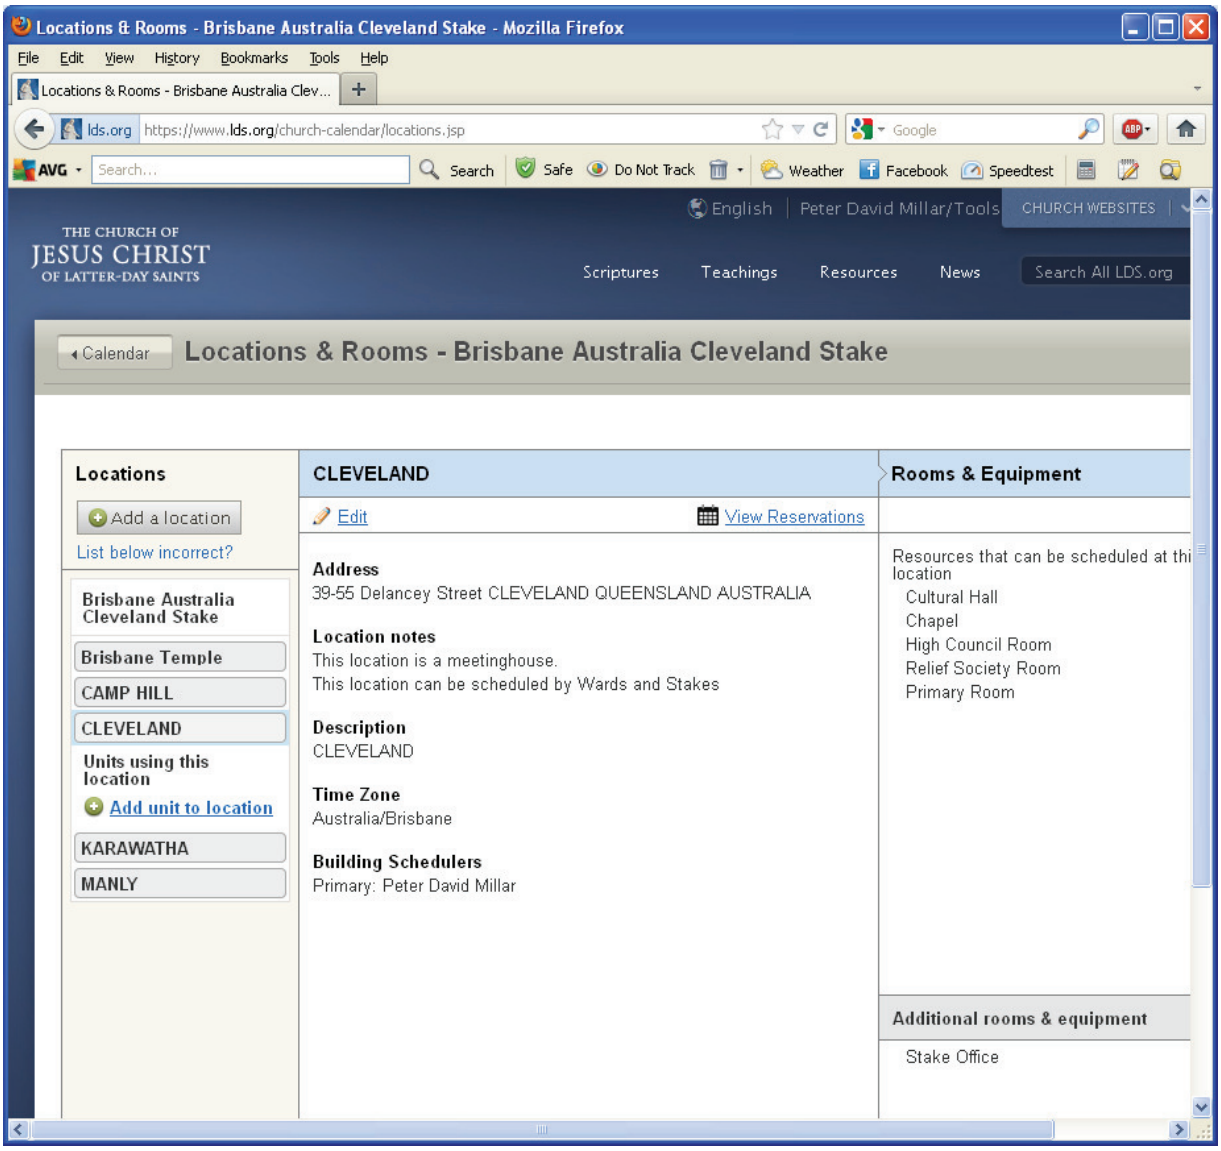

Also the Stake Calendar is not working correctly. I originally started creating this when I could see both Brisbane Stake and Brisbane Cleveland Stake and not sure if that is causing me problems. The problems is all to do with locations.

I have these locations set up in my stake calendar.

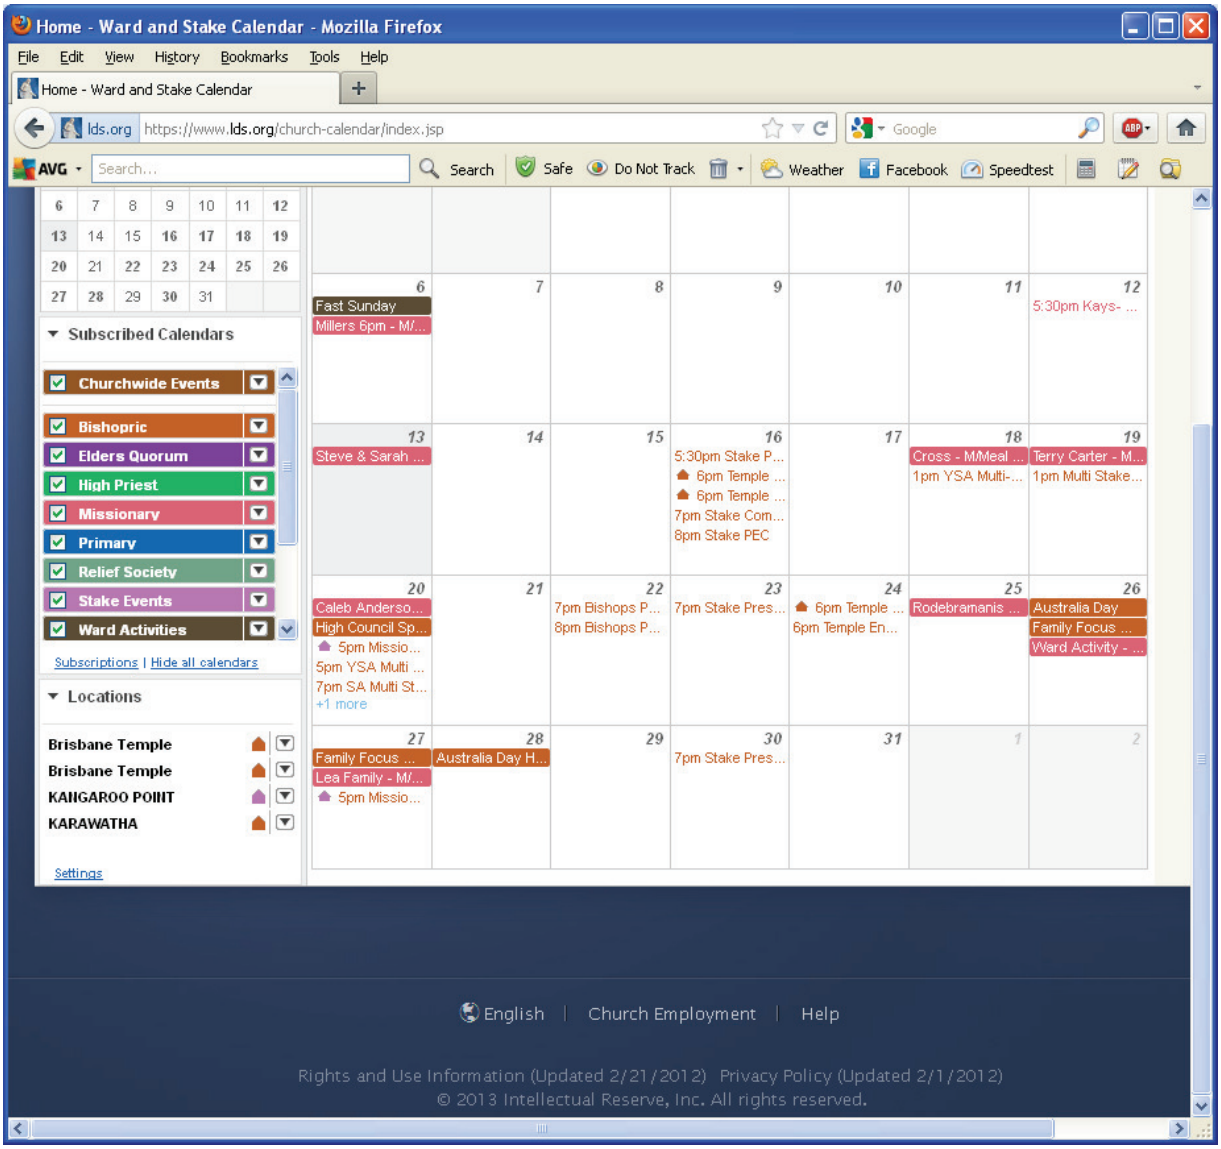

The buildings in our stake are Camp Hill, Cleveland, Manly. Karawatha is a neighbouring stake where we go to attend Multi Stake events. Brisbane Temple is the temple where I try to schedule baptistry and other. I have all locations set up to able to be scheduled by wards and stakes.

The setting of any one looks like

But when I look at the calendar or try to schedule an event the only locations that appear are from Brisbane Australia Stake calendar and the new Brisbane Temple and Karawatha that I have created. None of the stake units are appearing to be scheduled.

If I try to create an event I also only see the following items
