Simple Sacrament Meeting Broadcast with Zoom

This is for a simple broadcast with Zoom. It utilizes a smartphone and the components shown. It can be used as a Zoom Host or as a second participant in a Zoom Meeting. (Components may very based on availability and preference.)

Inexpensive smartphone with full HD 1080p or at least 8 Mega Pixel or more, WiFi and audio 3.5mm jack. You may need to have an adapter for audio out if needed. Old smartphones donated by unit members could be a solution.

Smartphone holder.

Tripod Mini Ball Head with 3/8" & 1/4" connection, rotatable by 360°.

Magic arm with super clamp.

OR

Lavalier Clip-on Microphone. Comes with one microphone or with a secondary microphone, if desired. This can be used as a microphone on a second smartphone being used as a second participant.

Microphone Stand

- ◊ Mounting a cell phone on the pulpit is a simple solution, even though it may not be ideal or the most elegant.
- ◊ Choose a system that requires minimal or no interaction during the meeting, so that focus is on the purpose of the meeting. No subtitles. No multiple screens.
